### DETAILED ACTION

1. Claims 12 through 31 are pending. Claims 1 through 11 have been cancelled. Applicant's claim to priority of Germany 102 34 448.5 filed July 29, 2002 is acknowledged.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 19 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the "device" by means of which the reaction mixture is uniformly distributed. Said "device" is an essential element whose description and/or mode of operation is not described.
4. Claims 13, 23, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In each of claims 13, 23, and 30, Applicant recites the limitation that "*a fixed-bed reactor is used as tube reactor in step (iii).*" Since many different reactor designs are fixed-bed types regardless of their geometries, the limitation can be interpreted as any fixed-bed reactor may be substituted for the tube reactor. It is suggested that the limitation be amended to read "*a fixed-bed tube reactor is used as the tube reactor in step (iii).*" or "*a fixed-bed tube reactor is used as the reactor in step (iii).*"

5. Claims 17 and 26 recite the limitation "...a previously defined threshold..." in each claim. There is insufficient antecedent basis for this threshold limitation in the claims from which they depend.
